Think Less, Live More. Lessons from a Recovering Over-Thinker

USA Book News announces the winners and finalists of the 2015 International Book Awards (IBA). This book is an award-Winning Finalist in the “Self-Help: General” Category of the 2015 International Book Awards from More Than 1200 Entrants.

For chronic over-thinkers, ***Think Less, Live More. Lessons from a Recovering Over-Thinker*** is a “must read.” With wit, stories and a bit of neuroscience, the book shares tips from an executive, engineer and recovering over-thinker on how to live and work with meaning by thinking less. In eight chapters discover the essential role feelings play in creating a more fulfilling life and rewarding career. Built-in exercises allow you to put the tips to work immediately.

Success, whether professional or personal, comes from balancing thinking and feeling. Professionally, you can’t *think* your way to the top. Personally, the things you *think* will make you happy won’t. When you learn to use both thinking and feeling, choices are simpler, goals become clearer, and the internal roadblocks to achieve your dreams are lowered. Don’t over-think it — start reading now!
